Much was said about Diane Etherton's tragic death; to dwell again on death would perhaps make us overlook the life that she enjoyed.

Diane was a native of Madison and attended Madison schools without interruption. From North Madison grade school, she entered M. H. S. in the fall of 1955. Diane chose the academic course and was an exceptional student in all her studies.

She enjoyed social affairs and was an easy person to know and like. She joined G. A. A. and Sunshine Society and she was an active member of the Trinity Methodist Church. Her 4-H Club elected her to preside over its meetings, and she was also a member of the M. H. S. Student Council in her sophomore year.

Diane's smile and sense of humor endeared her to all her friends and acquaintances, and she will be remembered as having lived a good life.

*AROUND M.H.S.  
WE ARE  
ALWAYS  
SCURRING*

A day at M. H. S. is always filled with business. Students rush hurriedly from class to class stopping briefly at their lockers to deposit books and take up others. There are seldom more than a few moments for chatting before the bell rings again.

Mr. Salm may often be seen making or receiving telephone calls, keeping in touch with parents and school administrators.

## CAROLYN HEIDERMAN CROWNED MISS CUB

ABOVE: Miss Cub candidates await decision. FROM LEFT TO RIGHT: Janie Hines, Freshman; Barbara Stanley, Sophomore; Donna Moore, Junior; and Carolyn Heiderman, Senior. Children of coach Bud Ritter carry Miss Cub's cape and crown.

LEFT: Madison Cub guard Phil Sherwood accompanies Miss Cub Carolyn Heiderman from the floor.

The mighty Madison Cubs stand as they receive a special word of praise from Dr. Robert Zink. The marvelous reception given to the cubs at the pep session pleased the players a great deal. The Madison Cub players as well as Coach Bud Ritter wish to thank the many loyal fans who backed their every basket. The season ended with a record of 25 wins and 1 loss.

Madison fans sit in anticipation of the arrival of the Cubs.

At the Semi State game, excitement is not the word to describe the backing shown by the fans.

The school play was a big success this year. The play "Love is Eternal" by Irving Stone was presented by members of the Madison High School student body. Starring as Mary Todd and Abraham Lincoln were Donna Moore and Pete Woodburn.

## *SCHOOL PLAY IS A SMASH HIT*

Walter Gammons, Jim Rodgers, and Karen Holcome starred in supporting roles.

Mrs. Erma Wingham formed the cast and acted as director.

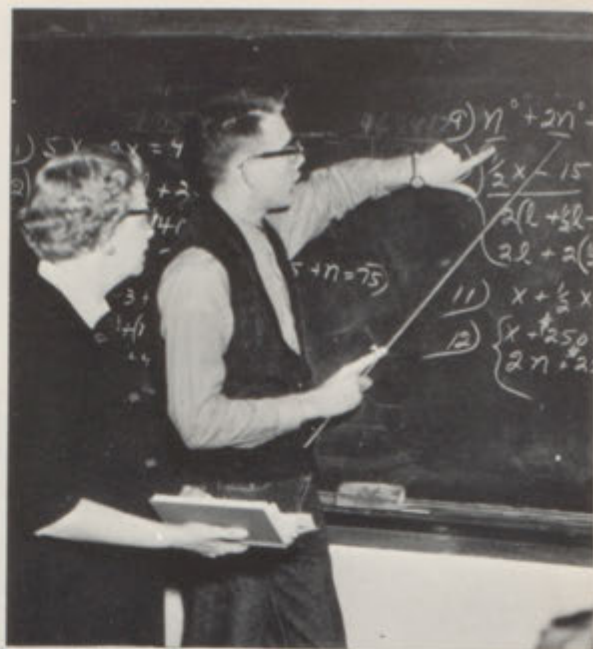

## D.A.R. GOOD CITIZEN AWARDS ARE GIVEN

Miss Ann Schlereth, a senior at Madison High School, won the annual D. A. R. Good Citizen Award this year. Ann competed with girls from other Jefferson County Schools for the county award. Lynn Lynch and Sharon Schwartz were runners up for the school award.

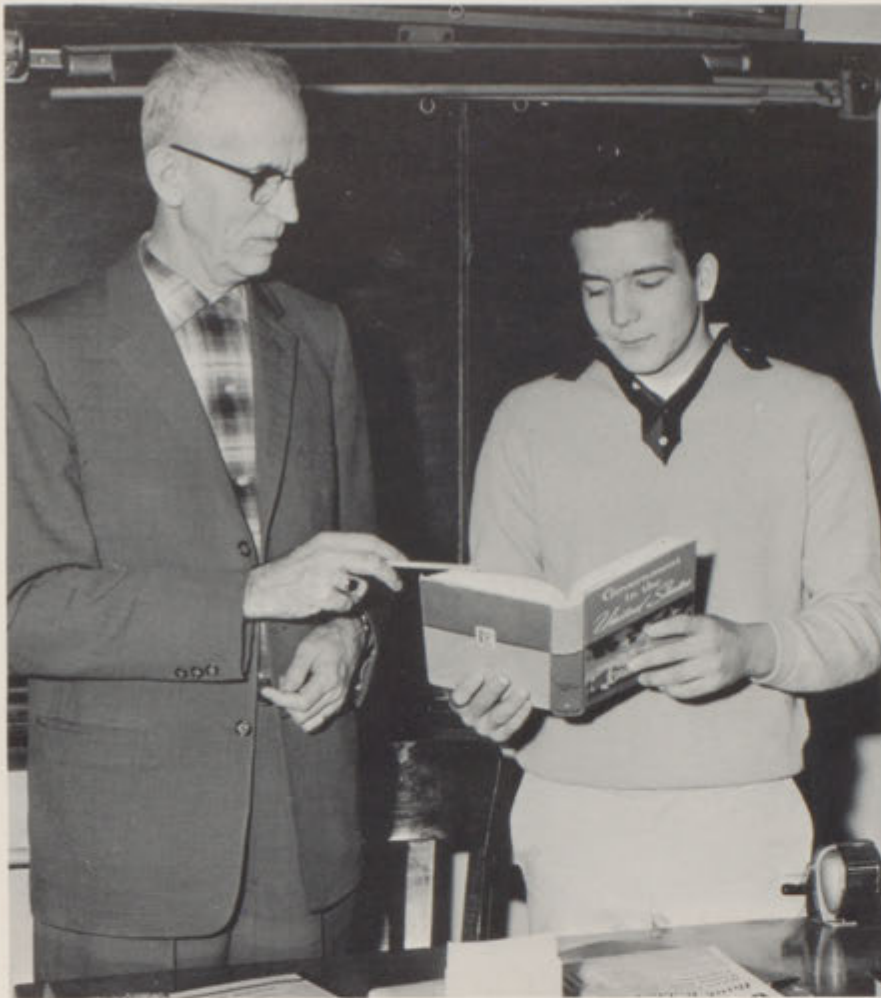

## MATHEMATICS STEPPED UP IN NEW AGE

The strong emphasis on mathematics throughout our country, has been seen, too, at M.H.S. The academic requirements are met through the efforts of Mrs. Manauh and Mr. Buckles, our math teachers.

Mr. Buckles teaches first year algebra and plane geometry. After completing these two subjects, a student can take solid geometry, trigonometry and second year algebra under Mrs. Manauh.

LEFT: "Every year this book gets bigger." Things do keep happening to make history. Walter Gammons is helped by Mr. Ruel but still has a long way to go.

LOWER LEFT: Mrs. Wood looks up a few references for her class.

LOWER RIGHT: Mr. Manauh, world history teacher, points out a few important facts to his class.

## *SOCIAL STUDIES CAN BE FUN*

# OUR OWN LANGUAGE IS HARD ENOUGH

Our librarian and English teachers help broaden our language understanding.

Miss Ernst explains a few fundamentals of English.

Mrs. Wingham gives her class pointers on theme writing.

# TO LEARN, MUCH LESS ANOTHER

Freshmen, especially those who plan to go to college, find Mr. Wilson's first year Latin class helpful. Many of them will take second year Latin also taught by Mr. Wilson.

Mrs. Willis, a teacher new to Madison High School brought many interesting ideas to the Spanish department.

## THE NEW FOCUS IS ON SCIENCE

Hank Bentz, Phil Sherwood, Marvin Reul learn more of the human body by studying Oscar the class mummy.

Mr. Denson lectures as students acquire the necessary knowledge.

Students listen anxiously as Mr. Mount explains animal life.

## *SCIENCE TAKES US INTO NEW FIELD OF INTEREST*

Under the leadership of Mr. Paul Denson, chemistry students gain a higher knowledge of the elements of nature. Here students (from left to right) Marvin Cook, Elizabeth Johnson, Tony Bright, and Gretchen Jolly apply this knowledge while working on chemistry experiments.

Mr. Mount aids the biology classes in the understanding of the plants and animals - their structures and habits. The students also learn of the human body.

Interest in vocations runs high as students have fun learning.

## *VOCATIONS HELP FIND JOB POSSIBILITIES*

Mr. Myers aids auto mechanics students in bettering their understanding of the inside workings of a car. Of course this makes a very popular class for the M.H.S. boys. The class will be enlarged in the new school.

## *A WOMEN'S WORK IS NEVER DONE!*

The home economics classes under the supervision of Miss Garrity improve their skills in the domestic fields. Both cooking and sewing are taught in a modern way to the modern homemakers of tomorrow.

JO CONNOLLY

PHYLLIS DE VEARY

The Madison cheerleaders this year were Ruth Hoskins, a senior, Phyllis DeVearly and Wanda Strickland, juniors; and Jo Connolly, a sophomore. These girls were all outstanding cheerleaders and did a fine job. Ruth was a cheerleader for all four years in high school. Jo seemed to be following in her footsteps since she had held a cheerleading position for both of her high school years.

The students and faculty thank the cheerleaders for their fine example of good sportsmanship, as well as their time and talent.

WHAT DO YOU BELIEVE? If you can sit down with yourself and make a list of those things that you sincerely believe, then it is easily possible for you and for others to make a very good estimate of the kind of person that you will be when you have reached maturity. The time is no more when a person can drift aimlessly through life without formulating some sincere convictions upon many of the important issues that will face him in later years. But only the person who knows what he believes, makes his decisions in life in keeping with these convictions, and steers his course accordingly, will be the successful and happy one, the person who will have a satisfied feeling that he has given to each new situation the best that he has to offer.

We have many more tensions in our nation today than do most other nations of the world. This fact is due to our democratic way of life. In a democracy, there are so many conflicts between authority and emotions, between right and wrong, that we need to train ourselves to take a stand on these conflicts and then to live accordingly if we expect to have a full and satisfying life.

There are many moral, social, and civic problems that each of us must face today and in the future. These will be met and solved properly only by the citizens of tomorrow who, as young people today, have been able and willing to develop for themselves proper and responsible beliefs and convictions on the important questions. Will you look yourself in the face and ask the question: "WHAT DO I BELIEVE?"

Mr. C. K. Salm

Mrs. Sutton, School Secretary

Mr. Salm, High School Principal

## SCHOOL BOARD ENLARGES PROGRAM

The school board of 1960 consisted of Fred Harrell, Wallace Childs, Robert Wallace, Harold Davis, and John Prichard. They have made a great many advances in creating a new and interesting program to be carried out in the coming year.

We constantly read of our vast natural resources. Ours is a rich land. But our greatest resources are the men and women who are laboring to build our country and the youth of today who will determine our future achievements.

Business looks for many characteristics in its employees. It desires quality, not quantity. Manpower is no longer measured in terms of muscles. It must have knowledge, vision, skill, and adaptability. The world is looking for the alert, creative type of person. You can be that person. Too many people do no more than the assigned tasks. The person who does just a little more is recognized and appreciated.

Our ancestors have brought us a long way. Much is yet to be done. You will take your place in tomorrow's world. You are important enough for the future. You are needed. Accept the challenge.

Mr. E. O. Muncie

Are you making good? That is a fair question that only you are best qualified to answer. Report cards may answer the question in part. But at best, grades can only indicate what busy teachers think of you. Directly, grades show only mental activity in limited fields. Only indirectly can they reflect your honesty, your courtesy, your ambition, your appearance, and your health. Yet all of these enter into that composite of complete personality which the world needs. You have it in your power to check yourself carefully and critically. You alone can tell whether you are making good now, whether your picture in the making seems to be what you want it to be.
